Ena ptička priletela,
dva metuljčka s sabo vzela,
tri čebelice ujela,
štiri muhe prehitela.

Pet je zajčkov obiskala,
šest medvedkov počesala,
sedem žabic poiskala,
osem mravljič požgečkala.

Račk devet je preletela,
srnic vseh deset naštela.
Ko je vse skrbno preštela,
je veselo zažgolela.
